| <b>Responsibility</b> | <ul style="list-style-type: none"> <li>• Assist in gathering and analysing digital business data to ensure alignment with organizational goals.</li> <li>• Support the development and implementation of digital marketing strategies across various platforms, ensuring content consistency.</li> <li>• Monitor digital platforms, including social media, web-based, and mobile applications, to evaluate performance and user engagement.</li> <li>• Contribute to managing online presence and digital assets, ensuring adherence to organizational brand guidelines and messaging.</li> <li>• Communicate effectively with team members and stakeholders to understand business needs and provide input for digital strategies.</li> <li>• Assist in creating, updating, and maintaining digital content across platforms, ensuring compliance with project requirements and quality standards.</li> </ul> | <p>The Digital Business Associate role involves assisting in organizing and managing digital business processes, such as customer relationship management (CRM), digital marketing, and online transactions. The individual is responsible for ensuring the efficient processing and storage of business data, while also maintaining the smooth operation of digital platforms. Key tasks in this role include supporting the development of digital business strategies, managing business applications, and performing basic analysis of digital performance metrics.</p> <p>The individual also plays a part in keeping the digital presence of the business up to date, addressing customer queries through online platforms, and ensuring that digital tools function effectively to support organizational goals. The responsibilities outlined in this job require the individual to take ownership of their own work, demonstrate problem-solving abilities, and ensure that processes are aligned with the organization's digital business objectives. As these tasks require a degree of autonomy and basic decision-making skills, this qualification framework (QF) is justified to be pegged at Level 3.</p> | <p>3</p> |

| Grand Total Marks |                                                                | 140          | 230             | -             | 80         |

## Annexure: Assessment Strategy

**Assessment Process Overview****Batch Creation & Assessment Request:**

Training Providers (TP) or Training Centers (TC), including any other authorized partner of Ministry/ Department create batches / push batches on the SIDH portal. Assessment requests are submitted through the SIDH portal or via email or other media as authorized from time to time. For NON-SIDH schemes, assessment requests are received electronically or through respective State Skill Mission portals. TP/TC initiates the assessment request through the InSDMS portal and processes the payment (where applicable).

**Batch Alignment & Confirmation:**

Upon payment confirmation, batches are assigned to the Assessment Agency based on factors like:

- Assessment readiness
- Availability of certified assessors for the specific job role
- Assessment capping to an assessment agency as prescribed from time to time for an AB An email communication / prescribed mode communication is sent to TP/TC for confirmation of the assessment date, with IT-ITeS SSC in the loop. Once confirmation is received, the Assessment Agency designates a TOA-certified assessor to conduct or facilitate the assessment.
- Batches are only formed when the Qualification is active.

**Candidate Verification & Assessment Execution:**

Candidate details are verified and documented at the beginning of the assessment by a certified assessor. A Quality Assurance (QA) mechanism is enforced, requiring an undertaking from the TC. Regular feedback is collected from TP/TC to ensure continuous improvement.

**Evidence Collection & Validation:**

Proctors or assessors capture date/time-stamped and geo-tagged photographs of the assessment location during the process. Attendance is also ensured offline. A PC-wise result analysis is conducted to refine assessment standards.

**Monitoring & Compliance:**

Batch monitoring follows established protocols, ensuring adherence to assessment guidelines. Sample based surprise visits are conducted at TC locations during both training and assessments to verify compliance. This structured approach ensures transparency, quality control, and validation throughout the assessment process.

**Testing Environment:**

- Check the Assessment location, date and time
- If the batch size is more than 30, then there should be 2 Assessors.
- Check that the allotted time to the candidates to complete Theory & Practical Assessment is correct.

**Assessment Quality Assurance levels/Framework:**

IT-ITeS SSC nasscom is responsible for the development and periodic review of the question bank developed for a specific job role. We publish an openly accessible sample /model question paper on our website for all stakeholders. The quality of the Question Bank created by the assessment designer is validated by a Subject matter experts on the following parameters:

- Appropriateness of the Question Bank in terms of facts, data and information.
- Checks for grammar, spellings, scripting and formatting.
- The information provided should be specific enough to remove any ambiguity in answers/solutions to the question.
- Relevance – Assessing the topic well w.r.t. the job role.
- Check if the difficulty level of each question is as per the matrix.
- Check if the images used in the question are clear and relevant.
- All variables, symbols and abbreviations used must be declared.
- The correct answer option should be unique, and the options should not be overlapping

**Annexure: Acronym and Glossary****Acronym**

| Acronym | Description                                          |
|---------|------------------------------------------------------|
| AA      | Assessment Agency                                    |
| AB      | Awarding Body                                        |
| ISCO    | International Standard Classification of Occupations |

|             |                                          |
|-------------|------------------------------------------|
| <b>NCO</b>  | National Classification of Occupations   |
| <b>NCrF</b> | National Credit Framework                |
| <b>NOS</b>  | National Occupational Standard(s)        |
| <b>NQR</b>  | National Qualification Register          |
| <b>NSQF</b> | National Skills Qualifications Framework |
| <b>OJT</b>  | On the Job Training                      |

## Glossary

| Term                                         | Description                                                                                                                                                                                                                            |
|----------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>National Occupational Standards (NOS)</b> | NOS define the measurable performance outcomes required from an individual engaged in a particular task. They list down what an individual performing that task should know and also do.                                               |
| <b>Qualification</b>                         | A formal outcome of an assessment and validation process which is obtained when a competent body determines that an individual has achieved learning outcomes to given standards                                                       |
| <b>Qualification File</b>                    | A Qualification File is a template designed to capture necessary information of a Qualification from the perspective of NSQF compliance. The Qualification File will be normally submitted by the awarding body for the qualification. |
| <b>Sector</b>                                | A grouping of professional activities on the basis of their main economic function, product, service or technology.                                                                                                                    |
| <b>Long Term Training</b>                    | Long-term skilling means any vocational training program undertaken for a year and above.<br><a href="https://ncvet.gov.in/sites/default/files/NCVET.pdf">https://ncvet.gov.in/sites/default/files/NCVET.pdf</a>                       |
