SECTION 1

ASSESSMENT

Body or Bodies which will carry out assessment:

- a) Five Elements Business Solutions Pvt.Ltd.
- b) CoCubes Technologies Pvt. Ltd
- c) Cindrellinfotech Private Limited
- d) Skill Training Assessment Management Partners, Ltd.
- e) AssessPeople Services (India) Pvt. Ltd.
- f) Manipal City and Guilds
- g) Induslynk Training Services Pvt. Ltd (Mettl)
- h) Navriti Technologies Pvt. Ltd
- i) The Assessors Guild (TAG)
- j) Aspiring Minds Assessment private Limited
- k) Edu World Consultants Pvt. Ltd

These assessing agencies have been chosen after thorough scrutiny of the credentials presented in response to the RFP. A set was made of the documents received from the assessment agencies. To check the knowledge of the assessing agencies they were required to set a question bank and were also required to find assessors with minimum 5 years of experience for the specified job roles. The documents were then verified by the assessment manager and cross verified by CEO / COO. Then the set of documents were submitted to the Governing concern for review and approving the assessment agency for the affiliation. The Governing concern reviewed the entire set along with set of question bank and the assessors profile and approved or rejected the same by signing the covering page.

Will the assessment body be responsible for RPL assessment?

Yes the assessment body shall be responsible for RPL assessment.

In RPL, the candidate has acquired the skills and knowledge while working and requires assessment and certification only. RPL is the acknowledgement of skills and knowledge obtained through:

- formal training
- work experience
- life experiences

The focus of RPL is the competence gained from these experiences; not how, when or where the learning occurred.

Process or steps in RPL assessments

1. Offering RPL to potential candidates
2. Providing information to the candidate
3. Self-assessment
4. Evidence collation
5. Assessment and making the decision
6. Feedback to the candidate
7. Documentation of outcomes

Describe the overall assessment strategy and specific arrangements which have been put in place to ensure that assessment is always valid, consistent and fair and show that these are in line with the requirements of the NSQF:

- a) The emphasis is on 'learning-by-doing' and practical demonstration of skills and knowledge based on the performance criteria.
- b) The assessment papers are developed by Subject Matter Experts (SME) available with the Assessment Agency as per the performance and assessment criteria mentioned in the Qualification Packs.
- c) The assessments papers are also checked for the various outcome based parameters such as quality, time taken, precision, tools & equipment requirement, etc.
- d) The assessments are designed so as to assess maximum parts during the practical hands on work. Duties and responsibility of a Filer & Assembler are also assessed. The technical limitations at the training centres are taken care in theory and viva.
- e) The assessment agencies are instructed to hire assessors with integrity, reliability and fairness. Each assessor shall sign a document with its assessment agency by which they commit themselves to comply with the rules of confidentiality and conflict of interest, independence from commercial and other interests that would compromise impartiality of the assessments.
- f) The assessment agencies are instructed to ideally have assessor with right mix of industry experience, academia and these are detailed in Assessment Agency Protocol
- g) The assessors selected by Assessment Agencies are scrutinized and made to undergo training and introduction to Assessment Framework, competency based assessments, assessors guide etc.
- h) The assessors are provided with assessors guide developed by the Subject Matter Expert of the assessment agency or by Gem & jewellery SSC as per the assessment framework. The assessment guides are developed to ensure the maximum possible consistency / transparency in the assessment by different assessors and elaborate on the following
 1. Qualification Pack Structure
 2. Guidance for the assessor to conduct theory, practical and viva assessments

SECTION 3

SUMMARY EVIDENCE OF LEVEL

Summary of Direct Evidence:

Justify the NSQF level allocated to the QP by building upon the five descriptors of NSQF. Explain the reasons for allocating the level to the QP.

Generic NOS is/are linked to the overall authority attached to the job role.

Process required	Professional Knowledge	Professional Skills	Core Skills	Responsibility	Level
A filer and assembler takes instructions from his supervisor and does the routine task of removing sprues from the cast jewellery piece; rectifying casting defects such as porosity, blisters, bubbles, and cracks; and assembling the final jewellery components meant for linking. The work process of this filer and assembler requires handling the tools in a predefined set of limited and repeated procedures, with very minimal technical and problem solving skills.	A filer and assembler needs to know about different types of abrasives for filing, different types of casting defects and various jewellery grinding, filing and assembling processes and quality standards to be followed. He should also be able to operate, maintain, sharpen and repair tools, use different types of tools for different end results. Should also understand various potential work hazards, and should follow the policies and standards maintained by the company.	This filer and assembler recalls and demonstrates repetitive skills like identifying different filing and assembling tools and carrying out the filing and assembling activity. Also identifies and reports problems with faulty equipments to his supervisor, seeks clarification on problems, applies good attention to detail and checks that his work is complete & free of errors. He also spots plagiarism and reports and alert authorities in time of any potential sources of violations.	This operator writes clear and short sentences, reads job sheets and gets the details clarified by his supervisor, reads notes and instructions in terms of process to be followed and performs basic calculations required in the filing and assembling process. Also does effective and error free communication with seniors and colleagues, builds team coordination, writes grievance complaint application, discusses task, schedules, and work-loads with co-workers and supervisors and helps them as required. Also understands basic banking procedures like account opening, basic banking operations and savings.	This operator gets tasks assigned by his supervisor and under his supervision he is responsible for filing and assembling the cast jewellery pieces, checking and rectifying the size of jewellery pieces, inspecting the jewellery piece for any casting defects that are not repairable and reporting it to supervisor. He is also responsible for correctness and on time completion of the assigned tasks.	3
